EDUCATION

UIT University- 7th semester

Bachelor of Science in Computer Science - CGPA:3.34

Karachi, Pakistan

Fatimiyah College

Intermediate, Computer Science - 89%

Karachi, Pakistan

WORK EXPERIENCE

PLMBR (US-based company) - Frontend Developer Intern

Aug 2024 - Jan 2025

- Developed and maintained **web applications** using **Next.js** and **Tailwind CSS**.
- Collaborated with **cross-functional teams** to enhance UI/UX and optimize performance.
- Implemented **responsive designs**, API integrations, and state management for seamless user experience.
- Contributed to **scalable and maintainable codebases** following best practices.

Pakistan Internation Airline, Karachi - Frontend Developer Intern

Aug 2024 - Sep 2024

- Developed an Android application to control the **cannibalization system** using **React Native**.
- Integrated **Firebase** as the backend for real-time data management and authentication.
- Implemented a user-friendly **mobile UI** with seamless interaction and data synchronization.
- Ensured efficient **state management** and optimized app performance

PROJECTS

CloudNOOE (Final Year Project)

An AI-powered cloud infrastructure design tool that transforms how IT teams plan and deploy resources.

- Developed an intelligent system that analyzes requirements and suggests optimal cloud configurations
- Created an intuitive drag-and-drop interface making complex architecture planning accessible to all skill levels
- Implemented machine learning algorithms to continuously improve recommendations based on user patterns
- Built with scalability in mind to handle enterprise-level infrastructure planning
- Tech stack: React.js, Node.js, TensorFlow, AWS service

POS System

A comprehensive point-of-sale solution for small to medium businesses that streamlines daily operations.

- Designed and implemented granular role-based access controls for secure team management
- Created a visually appealing UI in Figma that prioritizes speed and ease of use for busy cashiers
- Built inventory management features with real-time updates and low-stock alerts
- Implemented sales analytics dashboard with visual reporting for business insights
- Tech stack: Firebase (authentication, real-time database), Flutter (cross-platform deployment)

Rent-a-Car System

A full-featured vehicle rental platform connecting car owners with customers.

- Developed an interactive booking system with calendar integration and availability checks
- Created admin dashboard for fleet management, reservation tracking, and customer data
- Implemented secure payment processing and booking confirmation system
- Designed responsive layouts that work seamlessly on desktop and mobile devices
- Tech stack: React.js (frontend), Node.js (API services), MySQL (data storage)

Certifications & Training:

UI/UX Design with Figma - Udemy

- Mastered user interface design principles and prototyping techniques
- Created wireframes, user flows, and interactive prototypes for various applications

Google Cybersecurity Professional Certificate - (2024)

- Comprehensive training in security principles, tools, and best practices
- Learned threat detection, vulnerability assessment, and security protocols

Introduction to Web Development - Google Developer Student Clubs, UIT University (Apr 2023)

- Learned web development fundamentals through Google's official curriculum
- Completed practical assignments and collaborative projects

React JS Mastery Course - Hadi E Learning System (Nov 2023)

- Completed intensive training in React.js development with hands-on projects
- Certificate ID: Cg1100203

OTHER

Technical Skills:

React.js, Next.js, Tailwind CSS, Flutter, HTML5, CS3, Figma, Prototyping, Wireframing, User Flows, Node.js, Firebase, MongoDB, MySQL, Git, GitHub, Cybersecurity, REST APIs, Responsive Design, Python, Java, C++, C, React Native, Redis, Typescript, JavaScript, Unity
